
Exploratory Multivariate Analysis By Example Using R Chapman Hall/crc Computer Science Data Analysis

chapter 4 exploratory data analysis - statu - exploratory data analysis is generally cross-classified in two ways. first, each method is either non-graphical or graphical. and second, each method is either univariate or multivariate (usually just bivariate). non-graphical methods generally involve calculation of summary statistics, **exploratory multivariate analysis by example using r** - 2 exploratory multivariate analysis by example using r datasets (decathlon, european city temperatures, chicken genetic expression) which, chosen to be well-suited to pca, yield illuminating graphics. in the analyses of these, very effective use is made of supplementary elements to highlight features of the data, and all results are **exploratory multivariate analysis by example using r** -
